

Communication

Town of Canmore and Crossbow Point

We are forwarding you a copy of March 22, 2020 communication from the Town of Canmore for your information regarding travel to Canmore as we all manage through this COVID-19 challenge.

As all our owners know, Crossbow Point has four Guest Suites. In support of the Town's communication, we ask that our Suites only be booked for use in the event of essential family or personal need. If you currently have a Guest Suite booked and it is not for essential need, then we ask that you cancel that booking.

Thank you for your support and understanding.

COVID-19 Update for March 22

We want to let visitors who are coming to Canmore know that it is not appropriate to stop in town at this time.

Driving through the mountains to enjoy the scenery is not prohibited by the Government of Alberta, but we need Canmore residents and visitors to make socially responsible decisions. This includes the need for Canmore residents to postpone trips out of town, while continuing to reach out to help isolated friends and neighbours.

The provincial Chief Medical Officer of Health is still promoting going for a walk in your neighborhood or park, or going for a ski on the trails, while maintaining distance from others. If you do this, please avoid high traffic areas.

The hospitality and retail sector have been responding to this situation in a responsible way, following expert advice from the provincial health authorities. Most business have closed or restricted services to ensure they can manage social distancing requirements.
